

PRÁCTICA A TEMA 5. DESARROLLO DE COMPONENTES DE UN SISTEMA ERP-CRM.

1.- Crear un Módulo de Dolibarr con un menú lateral con las opciones Listado Cliente y Consulta Clientes. Permiten listar y consultar a partir de parte del nombre del cliente los datos de los clientes de la base de datos de Dolibarr (llx_societe Tabla principal de Clientes).

llx_societe Tabla principal de Clientes

Field	Type	Null	Key	Default	Extra	Description
rowid	int(11)	NO	PRI		auto_increment	technical index
nom	varchar(60)	YES		NULL		name
entity	int(11)	NO		1		multi company id
ref_ext	varchar(60)	YES	UNI	NULL		A field only stored and read by Dolibarr but not used. You can use it to store your id of thirdparty into another external system. This will help synchronisation tools.
ref_int	varchar(60)	YES		NULL		
statut	tinyint(4)	YES		0		state
parent	int(11)	YES		NULL		parent
tms	timestamp	NO		Current date		Date of last modification. See page Field Tms.
datec	datetime	YES		NULL		creation date
status	tinyint(4)	YES		1		Thirdparty status : 0=activity ceased, 1= in activity
code_client	varchar(24)	YES	MUL	NULL		client's code
code_fournisseur	varchar(24)	YES		NULL		Supplier code
code_compta	varchar(24)	YES		NULL		Customer account code
code_compta_fournisseur	varchar(24)	YES		NULL		Supplier account code
address	varchar(255)	YES		NULL		company address
zip	varchar(10)	YES		NULL		postal code
town	varchar(50)	YES		NULL		town
fk_departement	int(11)	YES		0		ID of province/state (llx_c_departements ->rowid)
fk_pays	int(11)	YES		0		ID of country (llx_c_pays ->rowid)
phone	varchar(20)	YES		NULL		phone number
fax	varchar(20)	YES		NULL		fax number
url	varchar(255)	YES		NULL		web url
email	varchar(128)	YES		NULL		email
fk_secteur	int(11)	YES		0		This column/field does not exist anymore in 3.3.0+
fk_effectif	int(11)	YES		0		ID of range of number of employees (llx_c_effectif ->id)

fk_typed	int(11)	YES		0	ID of type of entity (l1x_c_typed->id)
fk_forme_juridique	int(11)	YES		0	ID of legal status (l1x_c_forme_juridique->rowid)
fk_currency	int(11)	YES		0	
si ren	varchar(128)	YES		NULL	IDProf1
si ret	varchar(128)	YES		NULL	IDProf2
ape	varchar(128)	YES		NULL	IDProf3
idprof4	varchar(128)	YES		NULL	IDProf4
idprof5	varchar(128)	YES		NULL	IDProf5
idprof6	varchar(128)	YES		NULL	idprof6 (this column/field has been newly added)
tva_intra	varchar(20)	YES		NULL	VAT ID
capital	double	YES		NULL	capital of society
description	text	YES		NULL	
fk_stcomm	int(11)	NO		0	ID of commercial status (l1x_c_stcomm->id)
note_private	text	YES		NULL	private note
note_public	text	YES		NULL	public_note
prefix_comm	varchar(5)	YES	MUL	NULL	prefix commercial
client	tinyint(4)	YES		0	type of client (0/1/2)
fournisseur	tinyint(4)	YES		0	is it a third party supplier (0/1)?
supplier_account	varchar(32)	YES		NULL	account of a supplier
fk_prospectlevel	varchar(12)	YES		NULL	ID of prospect level (l1x_c_prospectlevel->code)
customer_bad	tinyint(4)	YES		0	is the customer deadbeat (0/1)?
customer_rate	double	YES		0	reliability rate of customer (0 to 1)?
supplier_rate	double	YES		0	reliability rate of supplier (0 to 1)?
fk_user_creat	int(11)	YES	MUL	NULL	ID of user who created the entry (l1x_user->rowid)
fk_user_modif	int(11)	YES	MUL	NULL	ID of user who last modified the entry (l1x_user->rowid)
remise_client	double	YES		0	systematic discount for the customer
mode_reglement	tinyint(4)	YES		NULL	default payment mode
cond_reglement	tinyint(4)	YES		NULL	default payment conditions
tva_assuj	tinyint(4)	YES		1	Supplier: issues invoices with VAT? / Customer: is subject to VAT?
local tax1_assuj	tinyint(4)	YES		0	is subject to local tax1?
local tax2_assuj	tinyint(4)	YES		0	is subject to local tax2?
barcode	varchar(255)	YES		NULL	This field is used to store barcode value of thirdparty when module barcode is enabled

fk_barcode_type	int(11)	YES		0	This field is used to store barcode type (EAN, ISBN, ...) of thirdparty when module barcode is enabled
price_level	int(11)	YES		NULL	level of price for multiprices
outstanding_limit	double(24, 8)	YES		NULL	Amount of allowed outstanding invoices before warning
default_lang	varchar(6)	YES		NULL	default language for this thirdparty
logo	varchar(255)	YES		NULL	
canvas	varchar(32)	YES		NULL	
import_key	varchar(14)	YES		NULL	Code use to track record import. See page Field Import key .
